

Budget Justification

I. PERSONNEL COSTS: Student Salaries and Benefits

The personnel costs are to support research assistance by undergraduate students and Ph.D students at the University of British Columbia. The project will require the services of one undergraduate student and one Ph.D. students in each year of the grant period. Therefore, I am requesting one undergraduate student and one doctoral student stipend of (480 hours \times \$20 \times 1 undergraduate + 480 hours \times \$30 \times 1 PhD=) \$24,000 per year for each of the 3 years. **Total: \$24,000 \times 3 = \$72,000 Requested.**

II. TRAVEL AND SUBSISTENCE COSTS

III. OTHER EXPENSES

IV. DATA COSTS???
